Praise for CCMC:

- Addicting**
- Invaluable**
- Facilitates science**
- Fast and flexible**
- Frees researchers**
- Fantastic tool**

What We Want (new):

- Mars and Mercury**
- Test particles in MHD**
- PIC outputs**

What We Want (improvements):

- Better Region-2 physics**
- Higher-resolution heliosphere**
- Higher-resolution global: LLBL, polar-cap**
- Improvements to MHD treatment of boundaries**
- Data outputs: formatting, methods**
- Max-min values output**

What We Want (misc.):

- Better CCMC support of GEM Focus Groups**
