

CCMC Supporting National SW Needs

- **“Science of forecasting”**
- **Repository of easily accessible information that informs of past forecasts compared to observations**
- **Organized by forecast lead time where that makes sense**
- **In coordination with NOAA**
 - NOAA forecast products where available
 - CCMC “research” forecasts when necessary
- **Community product that improves over time**
- **Independent assessment of space weather products**

- **Improving arrival time of CME**
